What is unusual about your hometown, place of work or job?

My hometown was virtually wiped off the map by an F5 tornado in 2011. It's going to be a brand new town once it's rebuilt.

What does this year's theme, "A Union That Works" mean to you?

It means that we're a union that gets the work done for our members and for the working class. It also means that we're very diverse because we represent a lot of working people.

What issues will be important when your Local's contract expires?

Healthcare. We were extremely fortunate in our last contract that we were able to negotiate flat rates and moderate increases, but we're not sure it'll be quite that easy next time.

What is the most "political" thing you have done?

In 1999, I made a couple of trips to D.C. to lobby during the steel crisis. One time I made the trip in one day: I flew in in the morning, lobbied, and flew back that night.

What career option do you think Chris Christie and/or Rob Ford should pursue?

Either one of them would make a good pitchman for something,

Who would you prefer to have dinner with, and why: Hillary Clinton, Lady Gaga, Wisconsin Gov. Scott Walker, Will Smith, Richard Trumka or Jennifer Lawrence?

Hillary Clinton: she would be a good person to talk to about politics, and she's a fascinating, very intelligent person.

What's the best thing about the Convention so far?

I'd like to go down to Fremont to experience some history. time you're been the hall.

What things do you hope to do while you're here?

Meeting more new people.

Have you yet decided how you will put the convention to work when you return home?

I'm staff right now, so I'll go back with a lot of good information that I can bring to a lot of different locations, as well as my home local. They need to know what's going to happen to this country if we don't try to take things back. We're at a crossroads, and if we don't do what needs to be done, the whole middle class is in trouble.
