The Importance of Your Vote

The 2016 presidential, congressional and state election cycle is fast approaching. This election cycle will likely be the costliest and nastiest in history. The stakes for this election are high, particularly for working families. A handful of billionaires, with their well-funded Political Action Committees, intend to buy this election and impose their will on Congress and State legislatures. Their goal – to eliminate the voice for working families and advance an agenda that serves only the wealthiest of Americans. Therefore, it’s essential that we engage our members NOW in order to get ready for next year’s elections.

The focus of our energies needs to be to confront the outsized influence of big corporations and Wall Street. Working together with the AFL-CIO, Working America and the entire labor movement, we can fight the ultraconservative and business interests who are ruining this great country. We know how to win important elections and advance progressive populist ideals. YOU are a very important part of our efforts for 2016 – your voice and opinion matter.

Your International Union wants to hear its member’s preferences prior to making any candidate endorsements. In the near future, we will share information with our members outlining the positions of the various candidates on issues most important to working people – in particular, where the candidates stand on issues that are essential to a Raising Wages agenda.

Your International Officers believe that any endorsement must be based on the candidate’s willingness to embrace the core elements of the Raising Wages agenda, as well as other issues of importance to our union and working families.

Most of us know why we vote the way we do. We support the people who support the rights and interests of working people.

We look at how elected officials act, regardless of party.

We want to support candidates who will fight for us AFTER the election.

In order to obtain our support in the upcoming elections, the candidate must support a platform that:

1) Makes it easier for working people to join together and negotiate with their employers for better incomes, improved benefits and safer workplaces.

2) Puts people back to work, so that everyone in America who wants to work can.

3) Changes the rules so that Wall Street CEOs pay their taxes and make long-term investments in businesses that create good jobs in America.

4) Strengthens labor standards, like the minimum wage, family leave and overtime pay, all to level the playing field for working people.

5) Defends and protects the essential role of government in ensuring that all Americans, regardless of their color, gender, or place of birth, have access to a quality education, health care, retirement security, decent housing and safe communities.

6) Invests public funds in a 21st-century national transportation and communications infrastructure to create jobs and build a foundation for our future prosperity.

7) Ensures that trade deals put people’s rights above investor profits, and create good jobs and strengthen democracy in the U.S. and abroad. Trade should benefit people, not just global CEOs and investors.

We ask that you educate yourself on the issues and where the candidates stand on them, from the President to Congress to the state and local races in 2016 vote to support those who support working families.

In an effort to get the conversation started and to make sure that you – our members – have a voice in the GMP’s decision on who to support, we have placed a poll on the GMP website. Check it out. Your participation will be greatly appreciated.

CHARTING A COURSE FOR THE FUTURE OF THE GMP

As we move forward towards our 75th Quadrennial Convention we will regularly provide the membership with additional information concerning the proposed merger with the United Steelworkers. As you know, the decision to present this merger opportunity to the membership at the 75th Quadrennial Convention was made only after significant deliberation. The goal of the proposed merger is to protect our membership going forward and allow the GMP to continue to provide the highest level of professional service and resources. With each issue of the Horizons we will address different topics and questions raised by the membership as we travel throughout the country and Canada to address the proposed merger. In this issue we discuss how the proposed merger will impact our Local Union Structure.

**Will our International Representatives change as a result of the merger?**

No. Except in unusual circumstances, all of the GMP’s local unions will continue to be serviced by their regular GMP International service officers and staff.

**Will the “GMP” still be our union after the merger?**

Yes. Even after the merger is approved, the GMP will remain an independent union through December 31, 2017. Starting January 1, 2018, the GMP will become the “GMP Council” of the USW. The GMP Council will retain jurisdiction over all historical GMP bargaining units and locals as well as all newly organized units and locals in our traditional industries. The officers and staff of the GMP will transition and serve as the officers and staff of the GMP Council and will continue to provide support through the Media office but with the financial and staff support of the USW as well.

**Will the GMP Local Unions retain the same powers, authority, duties and responsibilities?**

Yes. All of the rights, powers, privileges, benefits, authority, duties and responsibilities of the local unions will remain the same after the merger. The continuity of all GMP local unions is assured under the proposed merger agreement and the internal administration of local unions will continue uninterrupted except as to changes agreed to by the local unions. GMP local unions will retain their local union numbers and where there is a conflict with an existing USW local, the GMP local will be assigned a letter suffix to distinguish it.

**Will GMP Local Unions have to change their by-laws?**

All local union by-laws will remain intact and will continue except that they will be subject to the provisions of the USW Constitution.
How will Local Elections change after the merger?
All GMP local unions will be free to follow their current practices in electing officers through 2020.
All GMP locals must transition to the USW system by April 2021 and new officers will be elected in April 2021. GMP local unions may voluntarily elect to transition to the USW system prior to April 2021.

What will happen to Local Union property after the merger?
GMP local unions will continue to own all of their property after the merger so long as they continue to exist and operate. The merger will not impact a local union’s ownership of its property.

Will GMP Local Unions be able to affiliate with national, state, local and regional bodies after the merger?
Subject to the rules of the body involved, it is the intent of the merger to continue to allow GMP local unions to keep their affiliations with all national, state, local, regional and other bodies. After the merger is completed, former GMP seats in such bodies will be referred to as “GMP Council” seats if allowed by those bodies.
Here’s one more thing union families can share.
